Pursuant to 37 C.F.R. 1.109 and M.P.E.P. 1302.14, the following is an Examiner's Statement of Reasons for Allowance:

The prior arts of record do not teach or suggest a system for web-based, passive, user-active, event-centric application, wherein the passive, user-active, event-centric application not involving monitoring the information for the event; wherein the passive, user-active, event-centric application not involving monitoring the information for the event; the system being passive since it provides a medium in which a number of people come together to form a group or club, it does not manage events, it does not send invitations to the members, it does not send notifications to the members, it does not expect reply or acknowledgement from its members and hence it does not summarize the members' responses; it does not check or store members' availability, it does not provide or keep public or private calendars for members, or it does not send files or forms to members; the system being user-active since individual members must take the responsibility of signing into the web site and checking the scheduled events and decide on their participation/contribution; and the system being event-centric since the web site revolves around events, schedule of events, members related to events and members' participation and contribution to the events.

The examiner considers the applicants' claims 1-5 and 7-19 to be allowable based on the claim interpretation and the aforesaid prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
